The screenshot displays the RSNA Journals website interface. The top navigation bar includes links for Journals, CME, Contact Us, and More. The main header features the RSNA Journals logo and a search bar. Below the header, there are links for My Account and Sign Up for E-mail Alerts. The main content area is titled 'INSTITUTION ADMINISTRATION' and includes a dropdown menu for 'Select an Institution'. On the left side, there is a sidebar menu with various options, including 'Usage reports' which is highlighted with a red box and a circled '1'. The main content area is divided into two columns. The right column contains fields for 'Our SUSHI request URL is:', 'Your Requestor ID is:', and 'Your customerReference ID is:'. Below these fields is a button labeled 'Download COUNTER legacy reports' and a checkbox for 'Send an email after the COUNTER usage data for the current month has been processed and is ready for reporting.'. The 'Update settings' section is highlighted with a red box and a circled '2'. It contains four numbered sections: 1. 'Select year:' with a 'Year:' dropdown set to '2018'; 2. 'Select range:' with 'From:' and 'To:' dropdowns set to 'January' and '2018'; 3. 'Select All Reports' with several checkboxes for different report types; 4. 'Email Address' with a checked 'html' radio button and an 'All administrators of this organization' radio button. At the bottom of the 'Update settings' section, there is a button labeled 'Submit reports request' which is highlighted with a red box and a circled '3'.

**New content alerts** | Citation alerts

To receive alerts when new content is published in the journals listed below, check the box next to each publication you select. TOC alerts are sent immediately after a new issue publishes. By default, article alerts are sent WEEKLY.

To change the alert frequency for article-based alerts, first select the journals you want to be alerted on and then save your selection. Once saved, you can change the default frequency for article-based alerts. Note that if you subscribe to more than one alert, your frequency and format settings will apply to all of your alerts.
